

Fabricating Ultra-Matte Reverse Engravable Matte/Clear Products

When working with Rowmark's Ultra-Matte Reverse Engravable Matte/Clear products (312-101, 322-101, 342-101), be sure to do your fabricating/engraving/painting on the side with the "Rowmark" branded masking. It can be difficult determining the "front" and "back" of our clear products, but keeping this masking tip in mind will ensure you get the most out of your Rowmark material.

Should you have any questions at all, please contact Rowmark Technical Support at 1-877-ROWMARK or techhelp@rowmark.com.
