### INTRODUCING THE ROWMARK BRANDED SEKLEMA TABLEMAT

FINDLAY, OH: Rowmark introduces the Rowmark Seklema TableMat as the newest addition to its line of laser and rotary engravable products.

The Rowmark Seklema TableMat is a multi-purpose “tack-down” mat which will effectively hold substrates more securely for efficient engraving. This new versatile table mat will now work seamlessly with routers, rotary engravers AND laser systems. It features a usable, two-sided design that doubles the product life. The material also cleans easily with water. These features speed up production and decrease labor and clean-up time for sign and award professionals. With proper care, the Rowmark Seklema TableMat can provide up to years of effective use. It is available in both standard and custom sizes.

For more information on the Rowmark Seklema TableMat or other Rowmark products, visit [www.rowmark.com](http://www.rowmark.com). Experience Rowmark’s online live chat feature, and speak one-on-one with a knowledgeable representative.

NOTE: Included with this news release is a photo of the Rowmark Seklema TableMat for publication.

*Company information: Rowmark is the world's leading manufacturer of engravable sheet plastic for the awards, engraving and signage markets, and also carries a complete line of sublimation products.
