ROWMARK NAMES ERIC HAUSSERMAN VICE PRESIDENT OF MANUFACTURING AND TECHNOLOGY

FINDLAY, OHIO – The Rowmark Board of Directors is pleased to announce the promotion of **Eric Hausserman** to the position of **Vice President of Manufacturing and Technology**.

Hausserman joined the Rowmark team in 2000 as Plant Manager. During his six years with the company, Eric has been the driving force behind the integration of qualitative processes and measurements for Rowmark's world-class manufacturing operation.

"Eric has been a key part of our team as our business continues to grow," said Rowmark President and CEO Duane Jebbett. "His focus on innovation and manufacturing processes have had a positive impact on our company, and that sentiment was echoed by our Board of Directors with this promotion."

Eric holds a Bachelor of Science degree from Western Michigan University and a Master of Business Administration degree from Indiana Wesleyan University. He and his wife, Jennifer, live in the Findlay area with their daughter, Sami.

Company information: Rowmark is the world's leading manufacturer of engravable sheet material for the awards, engraving and signage markets, and also carries a complete line of sublimation products. Its products are sold exclusively through authorized distributors in more than 60 countries. For more information, visit www.rowmark.com.
